You will be automatically renewed in the eMPower Millis product, Millis Basic, starting on your December 2023 meter read.

October 19, 2023

Dear Millis Electricity Customer,

Thank you for participating in eMPower Millis, the Town’s Community Electricity Aggregation program to provide electricity supply options to our community since 2021. The Program works to ensure competitive, stable costs for renters, homeowners, and businesses, although we recognize that savings cannot be guaranteed. The Town has renewed the Program with new prices. The electricity supplier for the eMPower Millis Program is Constellation.

TO REMAIN IN THE PROGRAM

You currently receive electricity from the Program’s “Millis Basic” supply product. **You do not need to take any action to remain in the Program.*** If you take no action, you will be automatically renewed in the Millis Basic product, starting on your December 2023 meter read.

You may choose to enroll in another eMPower Millis product. To do so, call the program’s electricity supplier, Constellation, at (833) 461-0813, or submit a request at eMPower.MillisMA.gov. You may opt out of the Program and return to Eversource Basic Service. To do so, you must take one of the following actions: call Constellation at (833) 461-0813 or submit the opt-out form at eMPower.MillisMA.gov. There is never any penalty or fee to change products or leave the Program.

*If you have a supplier block on your Eversource account, you must remove it to remain in the Program (see page 2).

The Program cannot guarantee savings compared to Eversource Basic Service for the duration of program pricing because future Basic Service rates are unknown.

Program prices could also increase as a result of a change in law that results in a direct material increase in costs during the term of the electric supply contract. A commission fee of \$0.001 per kilowatt-hour (kWh) for the aggregation consultant is included in all program prices. eMPower Millis rates also include taxes which are billed as part of the power supply charge.

eMPower Millis rates apply to service beginning and ending on the days of the month that your meter is read. Rates indicated above are for Supply Services only.

Some products contain additional Renewable Energy Certificates (RECs) above that required by MA law. The additional RECs qualify for MA Class I designation from generation located within, or delivered to, New England.
